

CYBERSECURITY

Find the gaps before someone *else* does.

We test your applications and infrastructure, prepare you for the audits your clients ask about, watch for attacks and fix what we find, with the engineering team that understands how the product works.

PRICING	TIMELINE	DELIVERED BY
\$5-8k per level, or by task	1 week per level	Auvorent, in-house

WHEN TO CALL US

An enterprise client sent a security questionnaire you can't fully answer.

→ Assessment, documented controls and evidence you can share.

You've never had an outside party try to break in.

→ Authorised penetration testing with a remediation plan.

SOC 2, ISO 27001 or GDPR keeps coming up in deals.

→ Gap analysis and readiness work ahead of an independent audit.

If something happened tonight, nobody would know.

→ Logging, detection rules, monitoring and an incident response plan.

HOW WE WORK

01 Scope	Signed scope and authorisation
02 Assess	Findings ranked by risk
03 Fix	Remediation log
04 Prove	Retest report and evidence pack
05 Watch	Monthly security report

WHAT THE WORK COVERS

Assess & test

- ◆ Security assessment
- ◆ Vulnerability scanning
- ◆ Application and API penetration testing
- ◆ Cloud configuration review
- ◆ Retesting after fixes

Monitor & respond

- ◆ Centralised logging
- ◆ Detection rules and alerting
- ◆ Incident response plan
- ◆ Tabletop exercises
- ◆ Incident support

Comply

- ◆ SOC 2 readiness
- ◆ ISO 27001 readiness
- ◆ GDPR gap analysis
- ◆ Policies and evidence
- ◆ Security questionnaires

Engineer & advise

- ◆ Secure code review
- ◆ Security checks in CI/CD
- ◆ Cloud and access hardening
- ◆ Fractional CISO (vCISO)

Readiness, not certification

We prepare you for SOC 2 and ISO 27001 audits; certification itself is issued by an independent auditor you appoint. Penetration tests run only with written authorisation and agreed rules of engagement.

PRICING

\$5-8k per level · 1 week of implementation each

Level 3 Defined \$6,240 · 6 tasks	Level 4 Managed \$6,180 · 5 tasks	Level 5 Controlled \$7,500 · 5 tasks	Level 6 Monitored \$7,680 · 4 tasks
Level 7 Proactive \$7,800 · 6 tasks	Level 8 Automated \$7,080 · 4 tasks	Level 9 Adaptive \$7,800 · 5 tasks	Level 10 Optimizing \$7,320 · 5 tasks

Levels 3 to 10 each carry a defined task list and a price between \$5,000 and \$8,000. Every task is priced from its effort at \$30 an hour, so a custom plan costs exactly what its tasks do.
