

DIGITAL PRODUCT ENGINEERING

From a concept to software in *production*.

Product strategy, UX, engineering, QA and DevOps in one team. We define the smallest product worth launching, build it properly, and keep it running after release.

PACKAGES

Sprint from \$1,499 · MVP from \$7,999

BUILDS

iOS · Android · Web · SaaS

DELIVERED BY

Auvorent, in-house

WHEN TO CALL US

You have a concept and need to know what version one should contain.

→ We define an MVP around the one job users must be able to do.

Operations run on spreadsheets, email and re-keyed data.

→ Portals, internal tools and workflow systems built around how you work.

Systems don't talk to each other.

→ APIs, payment flows and data pipelines that move information without manual steps.

The current build is slow to change and nobody trusts a release.

→ Tests, CI/CD and a release process that makes shipping routine.

HOW WE WORK

01 Discover	Product brief and MVP scope
02 Design	Prototype and technical design
03 Build	Working software every iteration
04 Release	Production release
05 Run	Release plan and support

WHAT THE WORK COVERS

Products

- ◆ iOS and Android apps
- ◆ Web applications
- ◆ SaaS platforms
- ◆ MVPs and prototypes

Integrations

- ◆ APIs
- ◆ Payment systems
- ◆ Third-party platforms
- ◆ Data flows

Enterprise

- ◆ CRMs
- ◆ Business portals
- ◆ Internal tools
- ◆ Workflow systems

Assurance

- ◆ UX and UI
- ◆ QA
- ◆ DevOps
- ◆ Security engineering
- ◆ Maintenance after launch

Your code, your IP

Source code, designs and documentation transfer to you as set out in your signed agreement and payment terms.

PRICING

\$30 per hour · for work outside a package

DISCOVERY & PROTOTYPE

Product Sprint

\$1,499

1-2 weeks · Fixed price

MINIMUM VIABLE PRODUCT

MVP

\$7,999+

5-7 weeks · Starting price, fixed after the sprint

RECOMMENDED

WEB AND MOBILE PRODUCT

Launch

\$15,999+

9-12 weeks · Starting price, fixed after the sprint

SAAS, PORTALS & ENTERPRISE SYSTEMS

Platform

Custom quote

Phased · Scoped at \$30 an hour, billed by milestone

Changes after launch, extra features and work that doesn't fit a package are estimated from the team and weeks they need at \$30 an hour.
